PUBLIC SHOOTING GROUNDS

Having established game sanctuaries throughout the country, the Dominion Government is now establishing also public shooting grounds. The one policy is complementary to the other. The sanctuaries are designed to protect game from extinction. The shooting grounds are intended to give everybody a chance to hunt.

Under present conditions when the Provincial Government collects a fee for a shooting license it is doing something like taking more under false pretenses. Theoretically, the license is intended to go out and shoot game. But where is he to do the shooting? He cannot do it on privately owned land if the owner forbids, and the highways are neither safe places on which to shoot nor places where one is likely to find anything worth shooting.

Anybody who has a license if game is to be protected, or even saved from extermination, but as land is brought under cultivation and stock multiplies, the range over which the licensee may shoot is being down year by year. Public shooting grounds are a necessity if there is to be anything resembling equality of opportunity in the shooting of game which is protected in the public expense and supposedly in public property.

CHARTER AMENDMENTS

The Legislature is being asked to amend the Edmonton city charter so as to make the mayor-alderman system. The whole idea is to be modified. It has become a well-established rule that a person who capably discharges the duties of chief magistrate for one year is re-elected for a second term. It is not therefore necessary to establish the two-year term in order to secure the mayor during his first year. And when we happen to get a mayor who is not capable, one year is plenty long enough for the city to be saddled with the inabili-

Another amendment would prohibit employees of the city holding office or employment in the city itself. That is a safety-valve restriction which the Legislature might well grant. In it is not likely that the electors would often choose city employees as aldermen or school trustees. But, unless there is a statutory provision, it is employment under a city government a temptation to aspire to these public honors, and to discharge their functions with an eye to catching votes. If the administration is to be kept clear of politics that temptation ought to be removed. The danger is not so much what the official might do if he got elected, or after he got elected, as in what he may do in trying to get elected.

FREIGHT RATE REVISION

In a telegram to the Mayor, Sir Henry Thornton expresses a hope that Parliament will put it up to the Railway Commission to make a complete revision of freight rates throughout the Dominion.

The validity of the Crown's Nest agreement having been established, and the power of Parliament to regulate rates by statute put beyond all doubt, there can be no reasonable objection to the demand for a reasonably necessary job to be turned over to the Commission. That the Commissioners are paid for. If they cannot devise a new rate schedule that will be fair to both railways and the public, and to one section of the country as against another section, then we either have a set of Commissioners or we do not need any Commissioners.

The present freight rate structure has been evolved under pressure of conditions, often local and often sectional. Legislation has played some part in establishing the present schedule. Conditions of the past, of course, have dictated to sectional aspects, but also play a part. The rate-pulling has not been an altogether absent factor in creating the inconsistencies and discriminations which are prominent features of the existing arrangements.

In order to get a complete and detailed review of the whole freight rate question, due attention being given to the rights of the railways as well as to the rights of the railway-users, to the changed conditions introduced by the digging of the Panama Canal, and to the present and prospective amount, kind and origin of traffic, that is to say, to all the factors which go to make up fairly or even properly. These are evolved, protracted study by men who have nothing else to do and whose business is to do that. The Commission is the body to which the master logically belongs.

Always, however, with the understanding that Parliament is the source of the Commission's authority, and that the judicial body cannot override the rulings of the legislature. That having been established as good law, as well as good sense, Parliament should lay down the principles upon which it wants the revision done and then tell the Commission to bring the freight rate structure up to date while keeping within those limitations.

THE SPRING STOCK SHOW

Edmonton's Spring Live Stock Show is billed to open on Monday, April 13th and run for the entire week. The prize list is a formidable looking pamphlet whose size indicates the growing importance of this annual event.

The show should be allowed to stay, and to grow. It comes into existence to serve the interests of a vital branch of agriculture in this part of the province, a branch that has already attained very large proportions and is bound to expand out of all semblance to its present real and coming importance. This spring show is serving the interests of the stockmen, a worth while way is proved by the fact that it keeps getting "bigger and better than ever."

Central Alberta is, first and foremost, a stock country. It is a good grain country, of course. No region can permanently be a first-class stock

country that is not also a good grain country. Stock used to run on the plains where grain could not be raised to advantage, and that is still true to some extent. In time, however, conditions with them. The stock country of the future will be the country where the heaviest crops will be grown. The great stock producing regions of Europe are not the areas of waste land or of scrub land, but are the Mediterranean countries of England and the "far" lands of Holland.

For generations to come the Alberta farmer will have to produce for export. What he gets out of the business will be what the overseas consumer pays less the freight. Grain is bulky, and the freight ate up a large proportion of the selling price.

By the time the grain is shipped to market, and to a freight rate which represents a smaller fraction of the market price. Distance from the sea, and the overseas markets, is and must always be a powerful factor in the calculations of the Alberta farmer, and the inevitable result is a steady increase in the relative importance of the stock-raising branch of his business.

The time to generate interest in the spring show is not the day the show opens, but now. From the present appearance of things the Alberta farmer will be in a position to do so the 13th of April. Sustained winter conditions beyond the middle of March mean that when spring comes the farm operations will have to be started at high speed. How many farmers will come to the show depends upon how many farms are now in the ground and get interested in the show before they get to close grips with the disease.

Anything that people in the city can do to attract interest in the show ought to be done. That is a matter of good business. The show brings people to the city and the city is what is spent here by outsiders. But creating interest in this event is also a matter of helping to strengthen one of the productive industries upon which depends the prosperity alike of town and country. If the price of grain is the value to the stockmen it would have died long ago. As it is of value to them it is something worth pushing along.

Anything that people in the city can do to attract interest in the show ought to be done. That is a matter of good business. The show brings people to the city and the city is what is spent here by outsiders. But creating interest in this event is also a matter of helping to strengthen one of the productive industries upon which depends the prosperity alike of town and country. If the price of grain is the value to the stockmen it would have died long ago. As it is of value to them it is something worth pushing along.

In the death of Captain Henry the city loses one of its prominent young business men, one who was born and reared here; and another of the boys who went "over there" has passed on, as the result of an ailment incurred in a German prison camp.

Persia says it is willing to stop growing opium if it can raise a loan in the United States to finance the shift to other kinds of production. As United States has the money and wants the opium trade stopped, that is reducing the matter to what Mr. Dawes would call "brass traps."

Winnipeg is to have a new amusement park. The surprising feature is that the enterprise seems to be undertaken by private investors and not financed at the expense of the taxpayers. From which it may be inferred that the park appears likely to be a paying venture.

The demand continues for a change in the system of grading grain, and the resolution put before the Legislature by the member for Leduc is along the line of the change commonly asked for. The size, weight and appearance are no longer the determining factor, the word, and some system which will make milling value the determining factor in fixing the relative price is what is being called for.

Twenty Years Ago

From the Files of the Daily Bulletin, March 17, 1895.

Green ribbons are the order of the day, in honor of St. Patrick, Ireland's patron saint.

A shower of rain last evening was something of a novelty in this season. A heavy frost occurred during the night and this morning drained and melted.

London Dispatch: Among the seekers for information concerning the Canadian Immigration office was one producing a pamphlet containing a list of grants to heirs of landmarks. He enquired what he should take out.

Current Comment

SHOULD PASS THIS TIME.

The government intends to reintroduce this session a piece of legislation that passed the House last year, and was rejected by the Senate. The statement made in the House of Commons by the Hon. G. B. O'Connor, K.C., on the subject was supported by a committee of the House last session, and sponsored by the Hon. J. C. Ross, who has now introduced it again.

The bill, if passed, would make it a criminal offense to break into a house, or to break and enter with intent to commit a felony, or to commit a felony with intent to commit a felony.

Port Arthur Team Qualifies to Meet Coleman

MANITOBA CHAMPIONS DEFEAT REGINA VICTORIAS BY SCORE 10-3

Final Game is Tame Affair, With Both Clubs Playing Mediocre Hockey—Vics' Goalie Did Not Put Up His Usual Good Exhibition.

WINNIPEG, Man., March 16.—Port Arthur, the hope of both Manitoba and the Thunder Bay for the Allan cup, emblematic of the Canadian hockey championship, qualified for the finals of the tournament by defeating the Regina Victorias, Manitoba champions, 10 to 3 trimmings, in the second game of the series here tonight, and won the round on the two games by 11 to 4. Port Arthur will now meet Coleman Tigers, Alberta champions, and conquerors of the British Columbia winners, Wednesday and Friday for the right to meet the eastern champions for the Canadian honors.

MUCH EXCITEMENT OVER VICTORIA-TIGER TEAM

VICTORIA, B.C., March 16.—Hockey enthusiasm is at such a pitch here that the result of the final game between Canada's two Victoria hockey Wednesdays will be the greatest news of the day. The game will have been made to have ticks go on the ticket stubs, and with police keeping the crowd under control, a record demand for general admission.

In the event of a tie at the end of the regulation time, an extra period will be played and if the score is then still unchanged a third period will be ordered. If at the end of that time the game is still on level terms, a third game will be ranged on neutral ice, probably Vancouver.

EVERY "TERROR" WILL BE SOLD

Officials of Hamilton Will Put Their Players on "Block" at Once.

HAMILTON, Ont., March 16.—The club has been sold to another team in the league and next season Hamilton will be represented by a entirely new team and in a new arena, according to a statement given out by Alex C. Blyth, club president. One of the four local owners denied the statement, however, and said that the players would be sold instead of the arena. The other three leases are for expense money and each player has been offered the club a place.

Players Leaving.

Members of the Canadian National Hockey League club were preparing today to leave for their homes and end their careers in hockey forever, rather than play under the Hamilton management again.

Captain "Shoey" Green, who has noted the poor condition of the game since the trouble started, was busy today preparing a statement for publication in effect to the world that the players were not to blame for the trouble.

The other members of the squad were trying to point out to Manager Percy C. Wilson that it was up to him to hold up their salary for the last week, and that the players were not to blame and according to reports they will take action in the course to rectify the situation.

The report sent out of Toronto on Saturday said that the players had been paid \$200 each and suspended could not be confirmed. Captain Green, however, when interviewed, stated that President C. F. C. Wilson had not notified him of the fine having been imposed on the players.

PAY HOMAGE TO CANADA.

YALE UNIVERSITY, New Haven, Conn., March 16.—A small band tribute to the memory of Walter Camp, Yale's greatest coach and a leader in Yale life and activities, was held at New Haven Saturday, when funeral services were held at his late home here to-day.

The services were simple and brief. Camp was in Evergreen cemetery.

DUNDEE WINS.

BALTIMORE, Md., March 16.—John C. Clegg, of Dundee, has given a decision over all Barbarians of Detroit at the end of 12 rounds here tonight.

ROYALS VS. DOMINIONS

The Royals will play a scheduled Duggan cup game at the South Side rink tomorrow night, starting at 8:30 o'clock.

The Royals are given a good chance to take the losses. However, the Dominions are reported as having a classy aggregation of pack-chasers and many fans that have been closely following the Duggan cup game predict that the Dominions will win out easily from the Royals and beat Gainers in hand fashion. One reason for this attitude on the part of the Dominion team's supporters is that Mike Howes will be seen here and will be a decided asset to the team.

PENNOCK SIGNS HIS CONTRACT

Three Yankee Players on the Sick List—Senators to Have Busy Week.

NEW YORK, Mar. 16—Herb Pennock, formerly of the Athletics and Red Sox, has arrived at the Yankee camp in St. Petersburg, Fla., eighteen days earlier than the regular opening date of the season. Pennock was sent to the Yankees as the result of an operation this winter. Pennock said he would sign today.

Whitey Birrell, who has a chipped finger, Martin Autrey a swollen ankle and Eddie Collins a sprained knee, are the other three Yankees on the sick list.

While Collins is up to speed, adding five more in the final frame, Birrell showed best advance in the second session to have by far the best record in the game. The others had their share of exchanges in the first period, but the Port Arthur squad on level terms.

Whitey Birrell, called upon to save up from outside the defense, was considered the best pitcher in the game. "Fat" Wilson and Captain Brody played a good defensive game, while Danny Cox, while on the ice, had plenty of time to show his speed. Fudus and Fudus opened up with some fine combination, and the Port Arthur team was up to speed.

Both the Giants in Saratoga, or the Dodgers in Clearwater, probably had more to do with the 10-7 victory for the Chicago Cubs than they did for the loss of the series.

Whether the Giants in Saratoga, or the Dodgers in Clearwater, probably had more to do with the 10-7 victory for the Chicago Cubs than they did for the loss of the series.

Whitey Birrell, for the services of Eddie Collins, up to speed, added five more in the final frame against the Yankees.

Spring Fashions Attracts a Large Number of Feminine Population.

Great interest was expressed in the Spring Fashion Show at the Hotel Alberta, the opening of the season of fashions of the Geddes Fashion reviewed the parade of the season.

A continuous round of wonderful fashions, the most brilliant of which midday was displayed in the afternoon world. Hats, wraps, coats, costumes, and colors were all the rage to inveigle. The short, slim and straight silhouette supreme, although a number of fashions of a more flared line were in the majority of the frocks shown in flannel, trimming has lost none of its popularity, and the new styles of hats, wraps, coats, and colors are in great favor.

Just what makes the new hats so unique is not known, but it is hard to decide—the luxuriant way the fashions line on the top or bottom of the crown. The becoming shape of polo or turban hats, the influence of the dictates of fashion has this season been centered on the crown. The large hats are in the open again and several pretty models.

The three-in-one dress was one of the fashions which seemed to catch the popular fancy. The wearer approached you a new, a most becoming and attractive dress, navy and white pin stripe material, combination suit-dress is all in.

The ensemble suit has a place on the spring calendar, not to be ignored, and the popular new a-line was shown in the new life, ruched, ruffles, ruched and ruffles, were Mrs. Tebb and Mrs. Dickey, Mrs. Fred K. Elliott and Mrs. Prue. Prue was in charge of a sale of home made hats.

Worley Hospital Patients Checked by Concert

Charming vocal and instrumental music was presented in the Red Cross Hall, Saturday evening, last night when the soldier patients were entertained by the band of the direction of Miss Pauline M. Vernon. Barford was the capable leader of the band.

George Humphrey, the latter two were all heard in duets. Mr. Sampson accompanied at the piano by

cheerful laughter with clever impersonation.

Spring coats are not only useful but in many cases very ornamental, and combined with touches of fur form many of the trimmings which are in the vogue.

Two pretty models, Mrs. G. D. Dinsdale and Mrs. Fred K. Elliott, were in charge of a sale of home made coats.
